Grant Proposals by Unit & Type FY 2021 – 2025

Source: Frank La, Sponsored Projects Administration

Note: Data reflects the respective annual award amounts for the period it is effective. Clinical research projects that paid based on study subject enrollment were counted as awarded at 100 percent of the contracted amount in the year received, regardless of enrollment/earned revenue. Reporting is on a cash-based method, reflecting revenue as it is received. The proposal data for fiscal year 2024 was originally misstated in *Fact Book 2025*. It has been corrected as reflected below.

Contract & Grant Awards by Unit & Type FY 2021 - 2025

Source: Frank La, Sponsored Projects Administration

Note: In FY 2022, Sponsored Projects Administration recategorized UTHealth Houston's extramural funding portfolio to better reflect the broader range of the university's program types: 1) "Research" has been sub-categorized into "Basic/Lab Research or Services" (and includes federal shared equipment grants) and "Clinical Research", 2) Instruction and Fellowship/Scholarship have been combined into "Training/Fellowship/Scholarship" to highlight the number of programs geared toward developing future research scientists and, 3) the Non-Research/Public Service category has been separated from "Other" to reflect the growth of public health and clinical service programs. Examples of these are the county-wide COVID-19 testing contract and the federal Ryan White HIV/AIDS program. Last, the funding amounts are all inclusive of sponsored projects but the number of awards, prior to 2022, did not include clinical trials. FY 2022 number of awards includes 395 clinical trials.

The university's grants and contracts software experienced a system error in FY25 that caused historical award data to change across hundreds of awards. The award totals for FY24 and FY25 are as reported on September 30, 2025 and will be restated once all corrections have been made in the system. The anticipated variance is insignificant.

Note: Data reflects the respective annual award amounts for the period it is effective. Clinical research projects that paid based on study subject enrollment were counted as awarded at 100 percent of the contracted amount in the year received, regardless of enrollment/earned revenue. Reporting is on a cash-basis method, reflecting revenue as it is received.

The university's grants and contracts software experienced a system error in FY 2025 that caused historical award data to change across hundreds of awards. The award totals for FY 2024 and FY 2025 are as reported on September 30, 2025 and will be restated once all corrections have been made in the system. The anticipated variance is insignificant.

Source: Performance Measures Report to the Legislative Budget Board, November 2025

Note: The COVID-19 pandemic beginning in March 2020 had a profound effect on the ability of UTHealth Houston medical, dental and nursing practitioners to perform patient care. FY 2020 decreases are the direct result of clinic closures and subsequent reductions in patient visits due to social distancing requirements. These effects are notable on the patient care tables that follow in this chapter.
